**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dr. Daniel Geselowitz on 05 December 2008.

The application has been amended as follows:

**In the specification:**

- On p. 2, line 25, replace - - - addict - - - and substitute therefor - - - adduct - - -.
- On p. 2, line 27, replace all instances of - - - addict - - - and substitute therefor - - - adduct - - -.
- On 3. 2, line 3, replace - - - addict - - - and substitute therefor - - - adduct - - -.

**In the claims:**

- Cancel claim 1.

***Withdrawal of Previous Rejections***

2. All rejections of record are hereby withdrawn. The prior art of record, Garner et al. (US 5,639,940) is drawn to the full length human fibrinogen  $\alpha$  E-chain protein and does not teach nor suggest the isolated fragment consisting of SEQ ID NO: 1, which is

amino acids 576-629 of the full length protein. Thus, Garner et al. does not teach the limitations of the instant claim 17.

***Reasons for Allowance***

3. The following is an examiner's statement of reasons for allowance: The instant claim is drawn to a protein fragment of the well known human fibrinogen  $\alpha$ -E chain (which is an isomer of the more common human fibrinogen- $\alpha$  wherein said  $\alpha$ -E has an additional C-terminal extension of several hundred amino acids). However, the instantly claimed protein fragment consisting of amino acids of SEQ ID NO: 1 (which is amino acids 576-629 of the full-length  $\alpha$ -E chain protein) has been isolated as a protein fragment which is indicative of those with potential liver disease. Said fragment consisting of SEQ ID NO: 1 has not been isolated previously nor has it been intentionally constructed/isolated and there is nothing in the prior art that teaches or suggests this exact protein fragment. **Thus, claim 17 is allowed.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SUZANNE M. NOAKES whose telephone number is (571)272-2924. The examiner can normally be reached on 7.00 AM-3.30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jon Weber can be reached on 571-272-0925. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
